

Supported Decision Making

October 11th
7:00 – 9:00 p.m.

Lower Level Conference Room
Massachusetts Down Syndrome Congress
20 Burlington Mall Road
Burlington, MA

Looking for an alternative to guardianship?

Supported Decision Making (SDM) is a process where a person is empowered to make decisions for themselves with help from a network of supporters. Join the Center for Public Representation (centerforpublicrep.org) and Mass Families Organizing for Change (mfofc.org) to learn more about this alternative to guardianship.

Families will have the opportunity to schedule a follow-up to learn more setting up agreements.

This workshop is offered by Massachusetts Families Organizing for Change in partnership with Massachusetts Down Syndrome Congress and Riverside Community Care as part of our **A Full Life Ahead** series: Workshops for parents and guardians on transition, employment, housing, relationships, and other topics that will lead to interdependent, full lives in the community.
