## WEBINAR SERIES ON HOUSING

# From Dream to Reality:

## Plotting the Course to Person-Centered Living

Laurel began dreaming about her son, Elijah's future when he was in elementary school. Now 26 years old, Elijah is working full-time at his dream job and living in shared housing of his choice.

In this webinar, Laurel will share her family's journey to develop their housing solution, including community and government resources that helped make it happen. She will also share case studies of families that have addressed housing needs as their children with disabilities transitioned to adulthood.

**DR. LAUREL PELTIER**

holds an Ed.D. in Special Education Leadership and an M.A. in English, as well as a professional license as a Special Education Administrator in Massachusetts. Laurel has taught middle school ELA and worked as a secondary program coordinator and special education administrator. Laurel also brings experience as the parent of a child with autism and intellectual disabilities.

**September 19, 2019 at 1:00pm Eastern**
